

ORSNZ YPP Coversheet

Please complete the following as part of your YPP (Young Practitioner Prize) entry.

Please summarise the starting point of your project, including existing software, existing models, etc.

Please summarise your contribution to the work, including details such as changes made to existing software, creation of new software, extensions to existing models, development of new models etc.

Please tick one of the following.

I am a(n):

- industrial practitioner (ie working in industry)
- PhD student
- Masters student
- undergraduate student

If you completed this work as part of a student project, please tick one of the following:

- I completed this work while I was a full time student
- I completed this work while I was a part time student

If you completed this work as part of a student project, please indicate what fraction of a year's study you have allocated to it (eg 30 points out of 120=25%), or for bigger projects, how many years and months you have been working on the project.

Fraction of Year = ____/____=____%, or ____ years and ____ months

I confirm the above information is correct, and that I am under 30 years of age on the first day of presentations at the conference.

Name: _____

Date: _____
